

INSTRUCTIONS FOR MAKING UP THE DL DIPINATAGE CARDS

1. Print out the main cutting sheet shown opposite onto Matte Card.
2. Cut off the White borders around the outer edges of the card.
3. Score along both lines as indicated and fold inwards – lefthandside first, then the righthandside. Your top picture should overlap and match up to the layer below.
4. Cut out the white areas on each panel to create your Dipinatage Windows.

5. Print out the Inside Deco sheet shown opposite onto Matte Paper.
6. Cut out the centre panel and stick this to the inside of your card making sure that the printed pictures on the card base are on the outside.
7. See picture opposite.
8. Fold the Righthandside over the centre panel, then the lefthandside. Your Dipinatage is now taking shape.

9. Cut out the Deco pieces and apply these to the Top layer of your card to create the 3D Dipinatage designs.

Your finished card should look something similar to this.

You can if you wish just print out the Inside Deco sheet marked **B.** make this up as a large Decoupage card.

This design is very flexible and will make up into several styles of card.
