

## INSTRUCTIONS FOR MAKING UP THE FLIP TOP CARD

1. If you wish, cut off the white border around the outside edge of you card, this is not essential to the making up of the card but entirely optional and personal preference.
2. Using a craft knife, cut carefully around the ladies head as in the picture opposite.
3. Then score across the middle of the card along the lines either side of the ladies head.

4. Fold the card along these lines and your ladies head will stand up as show in this next picture.

This completes this card, hope you liked making it up.

To post this card you will require a 21cm x 21cm(8" x 8") square envelope, instructions for making these from an A4 are available separately.
